

AerieHQ Admin Setup Guide

AerieHQ school resource. Built for authorized school-managed instructional use.

Deployment model

- Students use managed Chromebooks with the force-installed AerieHQ extension.
- Teachers use Windows or Mac computers with Chrome browser.
- Principals/admins use the web admin portal.
- Relay, license, and database services run in hosted infrastructure.

Google Admin setup

- Create or select the student OU.
- Force-install the AerieHQ Chrome extension.
- Apply managed JSON configuration to the student OU.
- Apply screen-capture policies to the student OU.
- Restrict guest mode and personal account sign-in according to school policy.
- Verify policies at `chrome://policy` on a student Chromebook.

Validation checklist

- Extension appears on student device.
- License validates.
- Student signs into Chromebook with school account.
- Student appears online/waiting.
- Teacher starts room and imports roster.
- Student joins or matches roster.
- Principal portal shows active room.

Note: Schools should review privacy, student notice, and data-processing documents with their internal leadership and legal counsel before broad deployment.
