

AerieHQ Parent and Student Notice Template

AerieHQ school resource. Built for authorized school-managed instructional use.

Template notice

- [School Name] uses AerieHQ to support classroom instruction on school-managed devices. AerieHQ allows authorized teachers and administrators to view connected student screens, manage classroom focus, push instructional websites, close distracting tabs, send messages, and respond to student help requests during instructional use.

Shared Chromebook note

- Because our Chromebooks may be shared, students should sign into devices using their assigned school Google account. AerieHQ uses the school Google account to identify the student for the active class session.

Data use summary

- AerieHQ may process student name, school email, device/session identifiers, classroom status, screen preview frames during instructional sessions, teacher commands, and help requests. AerieHQ is not used for advertising or consumer profiling.

School contact

- Questions about classroom technology use should be directed to [School Contact / Department].

Note: Schools should review privacy, student notice, and data-processing documents with their internal leadership and legal counsel before broad deployment.
