

AerieHQ Security and Privacy Overview

AerieHQ school resource. Built for authorized school-managed instructional use.

Purpose

- AerieHQ provides classroom monitoring and management for school-managed devices. It supports teacher dashboards, student screen visibility, Focus Mode, roster matching, private/broadcast messages, and principal visibility.

Access and deployment

- Student extension should be force-installed by Google Admin.
- Teachers and administrators should use authorized accounts only.
- School administrators control OU targeting, managed configuration, and rollout policy.

Data and privacy

- Data is used to provide AerieHQ classroom functions.
- AerieHQ does not sell student data.
- AerieHQ does not use student data for advertising.
- Schools should review the DPA and parent/student notice templates before rollout.

Note: Schools should review privacy, student notice, and data-processing documents with their internal leadership and legal counsel before broad deployment.
